ENERGY STAR BEST BUY BY THE NUMBERS

ENERGY STAR SUSTAINABILITY AT BEST BUY

Sustainability has become a key strategic component at leading retail and consumer electronic companies in response to trends, such as a more transparent world, shifting demographics, the rising influence of stakeholders and climate change.

Definition of Sustainability

"meeting the needs of the present without compromising the ability of future generations to meet their needs"¹

Sustainability at Best Buy

Continue leadership role in positively impacting OUR WORLD

- <u>Pragmatic</u>: creates business value through sustainability lens
- <u>Multifaceted</u>: impacts operations, finances, employee engagement and brand
- <u>Depth</u>: top down and bottom up
- Integrated: enterprise wide with many departments supporting sustainability

ENERGY STAR SUSTAINABILITY AT BEST BUY

Best Buy stakeholders identified the importance of customers having access to the most energy efficient products and encouraged us to think about new ways to educate customers on their purchasing options. This group also applauded Best Buy's commitment to assort and promote ENERGY STAR certified and EPEAT-rated products.

ENERGY STAR EMPLOYEE TRAINING

What is ENERGY STAR?

ENERGY STAR is more than a mark awarded for energy efficiency. It is a **partnership among government, business and consumers**, united in the pursuit of a common goal to protect our environment for future generations. ENERGY STAR:

Is a joint program of the U.S.

Environmental Protection Agency

(EPA) and the U.S. Department of

Energy (DOE).

Was introduced by the EPA as a voluntary labeling program in 1992.

Is a widely recognized and trusted mark on products, homes and buildings that meet strict energy efficiency requirements set by the EPA.

Computers

The ENERGY STAR requirements for certified computers include desktops, All-in-One desktops, laptops, etc. However, it does not currently include "slate" type computers, such as the Apple iPad. Click the buttons below to learn about the features and benefits of ENERGY STAR certified computers.

ENERGY STAR MEETING OUR SUSTAINABILITY GOALS

Helping Customers Choose Sustainable Products

Energy-Efficient Products

At Best Buy, we offer a large selection of energy-efficient products to help our customers around the world save money by using less energy. In the U.S. and Canada, we partner with the EPA's ENERGY STAR® program. Our U.S. customers purchased more than 20 million ENERGY STAR certified products in fiscal year 2014 and realized utility bill savings of more than \$76 million¹. This energy savings equates to just over 1 billion pounds of CO₂ emissions avoidance², or the equivalent of removing more than 98,000 cars from the road³. Learn more about U.S. ENERGY STAR certified products at **BestBuy.com/ENERGYSTAR**.

Partner of the Year

The U.S. Environmental Protection Agency (EPA) has named Best Buy as a 2014 Partner of the Year for our outstanding marketing and customer education of energy-efficient products. We use the strong ENERGY STAR brand to effectively communicate the benefits of energy-efficient products.
