

ENERGY STAR[®]

PRODUCTS PARTNER MEETING

September 5–7, 2018 | Phoenix, Arizona

Appliances | Electronics | HVAC | Lighting | Smart Thermostats | Water Heaters

AGENDA

September 2018

Dear ENERGY STAR Partners and Stakeholders,

Welcome to Phoenix and the ENERGY STAR Products Partner Meeting. We have an exciting few days planned for you and hope you take full advantage of this opportunity to build relationships, explore opportunities, and learn more about ENERGY STAR initiatives. More than ever, we appreciate our partnership with you and thank you for supporting the ENERGY STAR Program.

It seems as though we are on the precipice of significant change in our industry. So many pressing things to discuss. I can just imagine the buzz—lighting backstop, beneficial electrification, diminishing returns, smart homes, flexible loads, changing utility business models. Whatever the future holds, the ENERGY STAR Program is determined to remain relevant, working with our partners to define new and better ways we can offer you and your customers value while supporting a cleaner environment and robust economy. We hope you find that the agenda we put together this week reflects this commitment.

Thank you for joining us at the 2018 ENERGY STAR Products Partner Meeting.

Sincerely,

Ann Bailey
Chief, ENERGY STAR Product Labeling Branch
United States Environmental Protection Agency
