OFFICE OF
AIR AND RADIATION

November 5, 2013

Dear ENERGY STAR® Small Network Equipment Stakeholder or Other Interested Party:

The U.S. Environmental Protection Agency (EPA) is releasing a revised Nov-2013 version of the Final Version 1.0 ENERGY STAR Small Network Equipment Program Requirements, which contains minor editorial changes. In addition, EPA has also developed a sample calculations document in response to stakeholder requests for examples. Changes from the previous Aug-2013 of the program requirements are summarized below:

Eligibility Criteria

- Updated the external power supplies references (Section 3.2.1) to the most current applicable Level V performance requirements under the International Efficiency Marking Protocol.

Test Method

- Minor editorial revision in Section 6.4 to provide more clarity in item 8), by separating into two items, 8) and 9).
- Correction to Figure numbering throughout the document.
 - Addition of missing text in Figure 1

Sample Calculations

- Example calculations of P_{AVG_MAX} in the Eligibility Criteria for three different example products.
- Additional explanation and two examples of usage of Section 7.1.A of the Test Method

Please direct any questions to Una Song, EPA, at Song.Una@epa.gov, or 202-343-9923; or John Clinger, ICF International, at John.Clinger@icfi.com, or 215-967-9407.

Thank you for your continued support of ENERGY STAR.

Sincerely,

A handwritten signature in cursive script that reads "Una Song".
